CHEST	95	100	105	110	115	120				

Men

- A. Neck:
Measure around the base of the neck.
Remember to add a centimetre for comfort.
- B. Chest:
For a comfortable fit, measure around the fullest part of the upper torso for jackets. For shirts, this measurement is only a guide as we have several fits to choose from.
- C. Waist:
Size selection for the waist is only a guide, as all our men's trousers and shorts are engineered for comfort. Measure 3 to 4 centimetres below the true waist.
- D. Sleeve:
Measure at the centre point of the back of the neck, across to the top of the shoulder down to the wrist.
